Your preferred European perishables port

Port of
Antwerp

Broad offer for perishables supply chains

The Port of Antwerp offers the perishables, pharma & lifesciences sectors a strategic location in the European production & consumption heartland, specialized added-value services and an expert workforce that gets the job done in a timely, cost-effective and qualitative way, every day.

“We are convinced that Antwerp is a great logistics hub to organize our banana activities. From the heart of Europe, we can quickly serve our customers in the area. Our service provider has the necessary expertise to quickly respond to our needs.”

Hein Deprez,
CEO, Greenyard

“AstraZeneca chose Antwerp for in- and outbound flows due to the accessibility to its existing network. The infrastructure in and around the port, including warehousing, enabled the consolidation of air, road and ocean flows, whilst maintaining the high standards of quality of our highly sensitive pharma products markets.”

Julian Wann
Category Leader, Global Freight & Logistics

1. Short port transit times

At the Port of Antwerp we contribute to time-efficient cold chains by offering you:

- Profound expertise and unrivaled productivity in handling, storage and VAL services for containerised and conventional perishable cargo
- Inland location closer to your European customers
- Highly-efficient, integrated Customs & Food inspections
- Smart applications

2. Excellent connections

- Large offer of container and conventional services to/from overseas perishables markets
- Dense network of road, rail, barge and shortsea infrastructure with regular services between Antwerp and Europe's fresh markets and consumption centres.
- Specialised perishables forwarders designing the optimal transport route
